GOALS

Phase I

- Establish standardized procedures between all buildings and administrators to build consistency and understanding.
- Evaluate existing forms of communication tools to identify effective platforms to better inform all stakeholders.
- Assess and adjust working conditions and expectations of staff to attract and retain high quality staff.

Phase II

- Create additional meal options and improve nutrition to better fuel our students throughout the school day.
- Design and implement opportunities to expose students to vocational learning and skill building with a focus on grades 7–10.
- Research and explore a variety of systems designed to facilitate relationship building with students to strengthen our school community.

Phase III

- Identify and plan meaningful ways to connect every student to school to improve the student experience.
- Assess the campuses to create a plan of action to improve and equalize facilities for safety, functionality, and aesthetics — both inside and outside.
