Assistant Principal, Aaron Ostrander  
Director of Athletics, Bryan Hawkins*

February 13th, 2023

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2021-22 educational progress for Kalkaska High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Staci Short for assistance.

The AER is available for you to review electronically by visiting the following website [www.kpschools.com](http://www.kpschools.com), or you may review a copy in the main office at your child's school.

For the 2021-22 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2021-22. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-22. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2021-22. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school has not been given one of these labels.

Key challenges at Kalkaska High School include the subject areas of Math and ELA, and attendance. To address these issues, we continue to use curriculum that was newly employed in 2019, CPM in Math and My Perspectives in ELA. Both curriculums employ preparation for the PSAT and SAT tests used by the State of Michigan for evaluative purposes. All teachers in these two disciplines receive ongoing training in the use of these tools to improve student achievement. We also continue to employ a Tier 2 and a Tier 3 Intervention Program in both subjects that identifies students with gaps in their learning and supports those gaps with mastery of necessary standards. Homework labs are available daily both before and after school, and we continue to offer transportation home after homework lab in the afternoon. Additionally, we have a daily Advisory period during which students can complete homework and get additional help. To address attendance issues, we work closely with parents and the local prosecutor to address truancy issues.

State Law requires that we also report additional information.

1. Kalkaska High School provides education to approximately 440 students in grades 9-12 for Kalkaska Public Schools. Our district in Northwestern Lower Michigan covers 440 square miles in Kalkaska

County, and includes approximately 1300 students. All of the students in the district in grades 9-12 are assigned to the high school.

2. Kalkaska High School is in the 5th year of a 5-year Strategic Plan. Each year, the District's Strategic Planning Committee in coordination with the School Improvement Committee reviews student achievement, goals, and strategies in order to determine how to keep learning moving forward. These documents are available upon request. Please contact Staci Short.
3. Ninth through twelfth grade students in our school district attend Kalkaska High School. As juniors and seniors, some students attend the Northwest Education Services Career Tech Center (CTC). This past year, over 75 students attended the vocational school. Northwest Ed. also provides center based programming for CI and EI students.
4. KHS follows the Michigan Common Core State Standards, Next Generation Science Standards, and the Michigan Merit Curriculum requirements for graduation. Curriculum maps for the courses are located on the district's website.
5. KHS 9<sup>th</sup> and 10<sup>th</sup> graders take the PSAT each spring, and 11th graders take the SAT. Spring 2022 results indicate that 33% of 9<sup>th</sup> grade students met both benchmarks, 31% of 10<sup>th</sup> grade students met both benchmarks, and 26% of 11<sup>th</sup> grade students met both benchmarks in Math and Evidence Based Reading and Writing. These marks are all approximately at or above the state average for the spring 2022 test, with the exception of the 9th grade EBRW score, which was 9% below the state average. Previous to COVID 19, we were performing at or above the state average in all areas.
6. Attendance at Fall 2022 Parent Teacher Conferences was 21%.
7. All high schools are required to report on the following:
  - a) 6 students participated in college courses at Northwestern Michigan College either through traditional dual-enrollment or the early college program. This represents approximately 2% of the Junior Class and 5% of the Senior Class.
  - b) 5 AP Courses are offered at Kalkaska High School that are equivalent to college courses.
  - c) 55 or 28% of Juniors and Seniors enrolled in an AP Classes at KHS during the 2021-2022 school year.
  - d) Of the 55 AP tests taken, 15 students (27%) earned college credit in 2022.

Our vision is that "Kalkaska Public Schools will be a model of excellence in education and a source of community pride." We recognize that our school community must offer layers of support to our families. In addition to academic supports, we provide social and emotional supports, and access to our Karen's Kids Teen Pantry, which provides basic needs to struggling families and students. We are proud of our school, and we remain committed to becoming one of the best schools in our intermediate school district.

Sincerely,

Staci L. Short  
Principal, Kalkaska High School
